Volume 3, Issue I
February 2010

CSM is becoming CSMAMERICA

Corporate Services Management has been working during the past six months to develop partnerships that expand our business beyond janitorial maintenance. CSM will now provide facilities maintenance and management to corporations around the country. The change will immediately take effect with as we begin our new contract with Mitsubishi/CONRAC, with many more coming to fruition in the very near future. Employees will notice the changed logos on their uniforms, but have already been involved in the classes and instruction regarding green cleaning and safety standards that are a part of the CSMAMERICA focus.

CSMAMERICA...it's a new day.

CSM America Lands Mitsubishi

On December 11, 2009 Corporate Services Management won and was awarded the contract to provide janitorial and maintenance services for the Mitsubishi CONRAC maintenance facility and people movers located in College Park, Georgia. We welcome Mitsubishi CONRAC to the CSM America family.

According to CSM's Vice President Eric Vinson, CSM has begun discussions regarding the expansion of its cleaning to include maintenance and other facility management services in several other locations around the nation.

The CONRAC facility is under the supervision of Earl Roper. He and his employees are currently working 24 hours a day providing the outstanding service for which CSM is highly noted. CSM began work for the College Park facility just before Christmas and looks forward to our continued partnership in the years to come. For more information about Corporate Services Management and its team, please visit www.csmamerica.com.

CSM America Goes Green!

Corporate Services Management has achieved Green Seal Certification on December 17, 2009, thanks to the hard work and determination by the CSM corporate and management teams.

To be certified all products and services must meet GS-42 requirements, which means the products and services have been tested according to science based procedures. Now certified, CSM America can display the green seal of approval online and be listed as a socially and environmentally responsible “green” business in the National Green Pages directory, providing a strong business advantage.

Green Seal’s purpose is to create a “green” production and purchasing chain by assessing a product or service through testing and evaluation, including on-site visits. CSM is proud of this distinction and looks forward to maintaining their environmental commitment within the workplace and community. CSM is one of three (3) GS-42 Certified businesses in the southeast and one of sixteen (16) in the USA. Way to go CSM!

Safety Corner– Rules & Procedures

- Always use a “CAUTION” sign when wet mopping, stripping, or waxing floors in public or occupied areas.
- Treated dust mops should be stored in a covered metal container.
- Exits, aisles, stairs or fire fighting equipment should never be blocked.

Policy Spotlight–Solicitation

The distribution of literature or other material in working areas is prohibited. Employees are not to solicit on behalf of their own personal interests, nor solicit for any groups or organizations during their own working time or the working time of any CSM or client employees. Person who are not employees of CSM may not come on job sites at any time to solicit for any cause or to distribute material of any kind for any purpose without prior approval of management.

Our mission is to provide a quality cleaning service that surpasses all competitors while delivering a pristine working environment.
